

Envoys Online TV

Proposed Implementation Plan – Faith Flash Department

1. Vision

- Centralize church media content in one digital hub.
- Broadcast weekly Envoys News recap and announcements.
- Collect and share testimonies effectively.
- Host podcast content for flexible listening.
- Extend engagement beyond physical services.

2. Strategic Approach

- Upload and host all videos on YouTube.
- Embed videos into a branded Faith Flash website.
- Leverage YouTube for bandwidth, hosting, and streaming.
- Use the website as the organized media hub.

3. Website Structure

- Faith Flash Homepage – Media dashboard and featured broadcast.
- Envoys Online TV Page – Live stream + archive of episodes.
- Testimony Collection Page – Structured submission form with moderation.
- Podcast Page – Embedded audio episodes with descriptions.

4. Weekly Content Workflow

- Record service, recap, or announcements.
- Edit and upload video to YouTube.
- Embed video into website page.
- Publish and share with congregation.

5. Technical Implementation Focus

- Responsive and mobile-first UI design.
- Clean, structured content layout.
- Performance optimization.
- No self-hosted streaming or complex backend infrastructure.

6. Key Advantages

- Low cost and easy to maintain.
- Professional presentation.
- Scalable for future expansion.
- Centralized communication hub.

7. Proposed Timeline (3 Weeks)

Week 1	Finalize structure and design UI layout.
Week 2	Develop pages and integrate YouTube embeds.
Week 3	Testing and soft launch.

Envoys Online TV will position Faith Flash as a structured, sustainable, and future-ready media ministry.
